- Eight captivating stories, aimed at students from beginner to intermediate level, designed to give a sense of achievement, a feeling of progress, and most importantly – enjoyment!
- Based on extensive research into how students most enjoy – and benefit from – reading in a new language, and designed to eliminate feelings of frustration when reading in a foreign language.
- Featuring:
 - glossary for bolded words in text, so you can look up unfamiliar words
 - plot summary
 - bilingual word list
 - controlled language, including the most frequent words
 - illustrations to aid comprehension
 - comprehension questions after each chapter
- Each chapter contains manageable amounts of new vocabulary so that readers aren't overwhelmed, and plenty of natural dialogue to improve speaking ability and conversational grasp.
- Olly Richards is the founder of the blog *I Will Teach You a Language*. He is a well-known polyglot with a significant community, and will be promoting directly through his website, blog, podcasts, YouTube and other social media channels, and at conferences.
- Make learning with Teach Yourself Graded Readers even more fun with games and activities on Quizlet!
- Teachers! Bring extended reading into your classroom. Our Teach Yourself Graded Readers Teacher's Guide, created by Olly Richards, will be available this summer!

TEACHING REMOTELY THIS YEAR?

FOR SCHOOLS

The Michel Thomas Method is an ideal way to introduce students to a new language and help them build their confidence in speaking and using the language, from the start.

The method focuses on grammar and embedding the structure of the language into working memory. Students learn to use all major tenses by the end of the Intermediate course! Therefore, it's the perfect foundation for future studies.

It is a stress-free and 'safe' way to start learning, either in a group setting or individually.

Our courses are available via our website and app for an annual license fee.

If you are interested in trialling it in your school, contact us at support@michelthomas.co.uk

Also available to purchase and download from www.michelthomas.com

Who was Michel Thomas?

Gifted linguist Michel Thomas mastered ten languages and became famous for teaching Hollywood stars to speak foreign languages using his patented method.

Michel's life was shaped by WWII: he joined the French Resistance after spending two brutal years in Nazi concentration camps, where he was tortured by the Gestapo. It was under torture that he made the discovery that altered his life: "I concentrated so hard, that I stopped feeling pain. I was amazed at myself." This experience motivated him to investigate the untapped potential of the human mind. After WWII, Thomas concluded that democracy was impossible without an educated population. And it was this belief that led him to research new methods of teaching and learning and to dedicate his life to developing his method. He discovered that the secret to acquiring knowledge and being able to retrieve it was dependent on the way it went in — and more importantly, the way in which one sets about accessing it later.

Michel Thomas arrived in Beverly Hills in 1947 and set up the Michel Thomas Language Center on Rodeo Drive. He worked tirelessly to change the way languages were taught.

"The thrill is that you're actually figuring it out on your own. You're engaging with another language, not just parroting it... It's an excellent way to start, and leaves the listener thinking, *Hey, Ich kann do dis.*"

David Sedaris, humorist and author

How does the Michel Thomas Method work?

"What you understand, you know;
and what you know, you don't forget."

Michel Thomas

The Michel Thomas Method provides an essential foundation for your language studies. Using audio only, you'll gain a solid understanding of the underlying structure of a language because the focus is on speaking and embedding the language in your long-term memory.

Michel Thomas spent 50 years developing a method that he hoped would change the way we teach and learn languages. It breaks a language down into its component parts, enabling you to reconstruct a language for yourself — to

say what you want, when you want. You learn step by step, just as you learned your own language, so you build it up to produce ever more complicated sentences, not moving on until you've understood the previous building block.

Best of all, there's no need for homework, additional exercises or vocabulary memorization. Once you have mastered the Foundation and Intermediate courses, then further learning — with any method — is much simpler and more enjoyable.

Using a simple algorithm that presents the most logical way to learn the alphabet, this series teaches you how to recognise letters and common words in script languages with minimum effort. *Script Hacking* is ideal for anyone looking to master the basics of an alphabet as a springboard to further studies, or for travellers who want to understand the words around them.

In each book you will find:

- An introduction to the script
- Plenty of practice activities to help you recognise and write each letter of the alphabet
- #ScriptHacks including helpful mnemonics to remember the shape of each letter
- Accompanying audio files so you know how to pronounce letters and words

‘The idea of learning a new script can be very daunting, but Judith’s course took the individual letters of Arabic, one by one, and made them easy to remember and fun to use. Thanks to her tips I was able to read entire sentences written in Arabic out loud, in an incredibly short time!’

Benny Lewis, bestselling author of *Language Hacking and Fluent in 3 Months, on Arabic Script Hacking*

Judith Meyer is a language course developer and consultant with an MA in Romance Languages and Computational Linguistics. She speaks 13 languages and has successfully learned 5 foreign writing systems to date.
